

富怡电脑混合镶钻绣花机

Richpeace Computerized Mixed Rhinestone Embroidery Machine

RPMR-(12+91)-500X680-L

Machine dimensions (mm): 2825x2000x1650
Machine Weight: 1.2T

选项装置—激光装置

Optional-Laser Device

RPED-CL-902-550x780-LT.LS

主要特性与功能 Main Features & Functions

- Widely application : it is widely used on high fashion, shoes, fashion accessories, interior craftwork etc.
- Multi-functions, mixed flat embroidery with sequin embroidery and ultrasonic hot-fix, represent outstanding integration between machinery and electronics.
- High quality: Less thread breakage and better sewing quality at high speed.
- Convenient operation : LCD can display the stored design clearly and make the operation more convenient and easier.
- Allows versatile applications : A worth purchase and the best choice device for small workshop and production. Fulfilled various requirement.
- 应用广泛: 使用的面料广泛, 主要用于时装、鞋类、配饰、室内工艺烫钻等
- 多功能: 真正将平绣, 亮片绣, 和镶钻绣融为一体, 是机电一体化的杰出代表
- 高质量: 在高速运转状态下断线少, 刺绣质量好
- 操作简便: 采用液晶显示, 先进的控制盘, 能确认存储花样清晰地显示刺绣状况, 使操作更简单
- 符合多种需求: 高价值的选购设备, 可满足各种要求, 对店铺经营及小单量的生产商来说, 绝对是最佳选择

Richpeace laser embroidery machine, installed with the laser device on embroidery machine, makes a perfect union of flat embroidery, high speed laser cutting and laser engraving, which highly improves the product image and value added.
富怡激光绣花机将激光技术应用于绣花机, 实现了高速激光切割、激光雕刻与平绣的完美结合, 提高产品档次和附加值。

主要特性与功能 Main Features & Functions

- 40W CO₂ laser tube.
- Guidance by laser tunnel: flexible, high efficiency, low consumption.
- Perfect union of flat embroidery, high speed laser cutting and laser engraving, to reach high accuracy.
- Equipment is more stable, the laser power is stronger, longer lifetime, laser device could be used for at least one year under normal condition.
- 40W CO₂激光管
- 激光隧道导光: 灵活、高效、低耗
- 电脑刺绣与高速激光切割、激光雕花结合, 切割精确
- 装置更加稳定, 激光强度更高, 工作寿命更长, 光纤在正常情况下可以使用1年以上
